

OLIVER TILLINGHAST

SIGNALS INTELLIGENCE | DIGITAL NETWORK ANALYSIS

Wichita, Kansas | (785) 214-8759 | obtill199@gmail.com

Active DoD TS/SCI | Counterintelligence Polygraph

PROFESSIONAL SUMMARY

Cleared SIGINT and digital network intelligence analyst with six years of DoD and Intelligence Community experience, including recent operational analysis, technical reporting, and multi-INT fusion. Combines formal NSA NETA training with strong research, writing, collaboration, and geospatially informed analytic skills.

AREAS OF EXPERTISE

SIGINT Analysis | Digital Network Intelligence | Target and Entity Analysis | Multi-INT Fusion | Technical Reporting | Geospatial Context | Intelligence Databases | Operational Collaboration | Analytic Quality

PROFESSIONAL EXPERIENCE

Fusion Analyst | Data Analyst | Team Lead

October 2022 - Present

184th Intelligence Group, Kansas Air National Guard | McConnell AFB, Wichita, KS

- Maintain readiness to return to operational analysis while monitoring collection capabilities and the political and military environment surrounding priority adversaries.
- Evaluated a Sandia National Laboratories model designed to identify movement of order of battle, identified limitations in its analytic approach, and recommended an additional signals-based application.
- Create and respond to intelligence Requests for Information, clarify requirements, identify suitable sources and tools, and deliver concise findings to operational customers.
- Lead classified software and AI/ML evaluations with industry and national laboratory partners, assessing output accuracy, mission fit, data quality, limitations, and adoption barriers before recommending whether a capability should move forward.
- Lead more than 20 analysts by setting priorities, assigning work, monitoring progress, and resolving obstacles across operational and developmental efforts.

Digital Network Intelligence Analyst

September 2020 - October 2022

161st Intelligence Squadron, Kansas Air National Guard | McConnell AFB, Wichita, KS

- Built target, entity, relationship, and timeline structures covering more than 150 individuals using SIGINT, digital network intelligence, and all-source reporting.
- Produced more than 20 multi-intelligence assessments for United States Central Command and coordinated information sharing with NSA, CIA, Army, and other Intelligence Community organizations.
- Supported high-altitude U-2 missions for approximately 10 months as a report writer on sustained night-shift operations, producing timely reporting in a high-tempo classified environment.

PLATFORMS AND TECHNICAL SKILLS

NSA discovery and research tools; FADE/MIST; Palantir; IBM i2 Analyst's Notebook; Esri ArcGIS; iSpy; CED; MEPED; NASICLINK; classified intelligence databases; Python

EDUCATION AND TRAINING

A.A.S., Intelligence Studies and Technology | Community College of the Air Force | 2024 A.S. | Neosho County Community College | 2019

NETA Signals Intelligence Course Series, National Security Agency, 2021-2023 | Signals Intelligence Analyst Technical School, 2020 | Marketing and Digital Marketing coursework, Wichita State University, 2023-2024
