

OLIVER TILLINGHAST

DATA & GEOSPATIAL INTELLIGENCE ANALYST | PYTHON | SQL | ESRI ARCGIS
Wichita, KS | (785) 214-8759 | obtill199@gmail.com | Open to OCONUS assignment
Active TS/SCI with CI Polygraph | U.S. Citizen | USAF AFSC 1N451 (Fusion Analyst)

PROFESSIONAL SUMMARY

Intelligence and data analyst with six years in classified environments. Helped build an Esri ArcGIS dashboard and historical database of order-of-battle movement, designed Node.js, React, and SQLite collection and monitoring applications, and writes Python and SQL for analysis and data pipelines. Produced 20+ multi-intelligence assessments for U.S. Central Command and leads classified AI/ML evaluations with national laboratories.

CORE COMPETENCIES

Geospatial Analysis (Esri ArcGIS) | Data Analysis (Python, SQL, Excel) | Dashboards | Data-Source Integration & ETL | Order-of-Battle Analysis | All-Source Analysis | AI/ML Test & Evaluation | Briefing

PROFESSIONAL EXPERIENCE

KANSAS AIR NATIONAL GUARD (Staff Sergeant, E-5) **McConnell AFB, Wichita, KS**
Fusion Analyst, Data Analyst Team Lead | 184th Intelligence Group and 184th ISRG **Oct 2022 - Present**

- Helped develop an Esri ArcGIS dashboard and historical database documenting order-of-battle movement for analyst use.
- Designed and deployed Node.js, React, and SQLite applications for multi-source collection and monitoring on classified networks; built quantitative Python models for probabilistic assessment.
- Designed and fielded a natural-language retrieval workflow that lets combatant-command planners query operational plans in seconds; extended it to real-time wargaming and course-of-action questions.
- Lead classified software and AI/ML evaluations with Scale AI, Sandia National Laboratories, and Pacific Northwest National Laboratory, testing accuracy, mission fit, and limitations against mission-representative workflows; recommend against fielding when a tool lacks operational value.
- Tested a Sandia National Laboratories model designed to identify movement in an order of battle; challenged its analytic approach and recommended expanding it to signals-based order-of-battle identification.
- Build plans of action and milestones (POA&Ms) for test, developmental, and capability objectives, tracking tasks, dependencies, risks, evidence, findings, and recommendations for leadership and external stakeholders.
- Briefed the Director of Intelligence for the Air National Guard on the team's work, operational impact, and contribution to Air Combat Command policy.

Digital Network Intelligence Analyst | 161st Intelligence Squadron, 184th Intelligence Group **Sep 2020 - Oct 2022**

- Produced 20+ multi-intelligence assessments for U.S. Central Command, integrating geospatial, signals, human-source, and open-source reporting into decision support for command leaders.
- Built target, entity, relationship, and timeline structures on 150+ individuals of interest from multi-INT reporting.
- Operation ALLIES REFUGE (Afghanistan): tracked 52 subjects of interest and authored 109 time-sensitive reports that supported the safe evacuation of 124,000 noncombatants.
- Performed digital network intelligence (DNI) and signals intelligence (SIGINT) analysis, multi-intelligence fusion, and all-source analysis supporting time-sensitive reporting and crisis monitoring.
- Established information-sharing relationships with NSA, CIA, Army, and other Intelligence Community organizations.

TECHNICAL SKILLS

Geospatial & Analytic: Esri ArcGIS, Palantir, IBM i2 Analyst's Notebook, Cognos, FADE/MIST, Intelligence Community databases
Programming & Data: Python, SQL, SQLite, JavaScript, Node.js, React, APIs, ETL-style data pipelines, dashboards, Microsoft Office (Word, Excel, PowerPoint)

EDUCATION AND TRAINING

Associate of Applied Science, Intelligence Studies and Technology, Community College of the Air Force	2024
Associate of Science, Neosho County Community College	2019
NETA Signals Intelligence Course Series, National Security Agency	2021 - 2023
Signals Intelligence Analyst Technical School	2020
Complete Web Development Bootcamp	2023
Marketing and Digital Marketing coursework, Wichita State University	2023 - 2024
